To All Concerned---

We are glad to announce to all cream producers that our Acme Branch is, and has been since January 1, 1929, on a co-operative basis; that is that all profits over expenses of operating and marketing will at the end of the year be divided among patrons, according to the amount of butter fat produced. The poor outlook for crops at the present time should induce every farmer to produce all cream possible. We will be glad to have you call and talk this important matter over.

FIRE LOSS HEAVY IN ALBERTA

Alberta stood highest among the provinces of Canada with a per capita loss of \$5.74 caused by fires during 1928 according to figures compiled by the Dominion Fire Commission. The total fire loss in the Dominion during the year is given as \$102,697,849.

ALBERTA HEALTH OFFICIALS HONORED

Magistrate Emily Murphy of Edmonton; Hon. George Hoadley, Minister of Health; Dr. M. R. Bow, Deputy Minister of Health, and Dr. Harold Orr of Edmonton, have been elected officers of the Canadian Social Hygiene Council at a recent meeting of this organization held in Montreal.

SWANSON FILM BASED ON MAUGHAM STORY

"Sadie Thompson," Gloria Swanson's second independent United Artists picture, which is coming to the Carbon Theatre on Friday and Saturday of this week, is based on one of the most widely discussed stories of recent years, "Miss Thompson," by W. Somerset Maugham. It is the story of a tremendous emotional conflict between an outcast of San Francisco's underworld and a reformer. The picture was directed by Raoul Walsh, who also plays the role of the Marine Sergeant O'Hara; other members of the cast being Lionel Barrymore, Blanch Frederic, Charles Lane, Florence Midgley, James A. Marcus and Will Stanton.

WHY SCHOOL TEACHERS GO CRAZY

Question: "What is an island?"
Answer: "A place where the bottom of the sea sticks up through the water."
Q: What month has 28 days?
A: All of them.
Q: What is meant by rebate?
A: Putting another worm on your hook.
Q: What is the rule of three?
A: The infernal triangle.
Q: Name a popular flower.
A: Two lips.
Q: Define "handicap."
A: A chaperone.
Q: What is a good vacation song?
A: The Battle Cry of Freedom.
Q: Who is the minister of war?
A: A clergyman who preaches to soldiers.
Q: Define love.
A: A man's insane desire to become a woman's meal ticket.

A SHARE IN SUFFERING

Through modern miracles of transportation and communication the world is brought to our doorstep. We take our profit and our pleasures from the offerings of a continent and from beyond the seas and all corners of the world. We are no longer citizens of a single town or city, but of a mighty nation, and, indeed, of the world. Everything that concerns the world for good or ill some way concerns also ourselves.

We must take our share in the sorrows of the world no less than in its generous gifts. We cannot close our eyes and ears when our neighbors at the far end of the land or across the seas are stricken with disaster and suffering. To do so is to deny our citizenship in a nation and to evidence a selfishness which will accept the benefits of civilization but refuse its responsibilities.

It is not sentiment or sympathy alone which makes a claim upon us when tragedy sets its heavy hand upon a corner of the world. Our clear duty is also involved. All the advantages of civilized society depend upon the fact that the blessings of life are shared. It is equally clear that all must contribute to bearing and easing its burdens.

LITTLE ITEMS OF LOCAL INTEREST

Jim Ramsay and Frank Ward left on Wednesday last for their annual holiday at Edmonton.

Quite a gang of men have been at work on S. J. Garrett's new garage and the work is progressing rapidly and it will not be long before the new building will be open for business.

Mrs. E. Maxwell left on Thursday for a couple of days visit in Calgary.

Mr. and Mrs. Rudolf Brost left last week for a couple of months holiday in California.

Mrs. O. Kellar left last week for her home in San Francisco after spending the past couple of months holidaying with her parents, Mr. and Mrs. John Hammel.

D. P. Stacy left for McLeod after spending a week or so renewing acquaintances in town.

Mr. and Mrs. Thos. Johnson and family are away on a couple of weeks holiday.

A very successful Sunday school picnic was held at Wright's water hole last Wednesday afternoon and a large crowd of revellers was present. We understand that Dan Chere with a load of thirteen children and on returning he found that his large family had increased.

HAY—MUNRO

A quiet wedding was solemnized in Calgary on Tuesday, July 16, when Miss Ione Munro, daughter of Mr. and Mrs. J. Munro of Red Deer, became the bride of Stewart Hay, third son of Mr. and Mrs. A. Hay of Carbon.

The young couple left for a short honeymoon to Banff and other points and on returning will make their home on the farm near Carbon.

LYDIA LEISKE LAID TO REST

Funeral services of the late Mrs. John Leiske were held from the Rosebud church, Belsaker, on Thursday last at 1 p.m. and a large number of friends and relatives were present to pay their last respects to the deceased.

The late Lydia Leiske was 34 years of age and was born in Portland. She came to Alberta about 15 years ago and since that time had made a large number of friends in the Belsaker district, as was indicated by the number present at the funeral.

Mr. and Mrs. Roy Wacker and family left last Wednesday for a motor trip through southern Alberta.

Mr. and Mrs. G. W. Malton and family expected to leave this week for their tour to Eastern Canada.

Curious Optical Illusion

The Duchess of York, 20,000-ton Canadian Pacific trans-Atlantic steamer, is not going to crash the new bridge which, a few days after this picture was taken, was completed across the St. Lawrence in the harbor of Montreal, although the odd result of the photographer's work makes a smash-up seem almost inevitable. As a matter of fact the bridge is actually 26 feet above the tip of the liner's foremast which itself is 30 feet higher than the funnel. The midjet figures of the steel workers on the bridge give another indication of the great height of the structure.

How School Teacher Gained 18 Pounds and New Energy

"I am a public school instructor," writes Mr. Linus L. Clark, "and from my study I was convinced that Ironized Yeast was exactly what I needed to put me in shape. I took only two bottles and gained 18 lbs. More than that, Ironized Yeast brought more energy, greater endurance and an improved complexion."

You can believe letters like this. Thousands who were doubtful at first write they gained 5 to 20 pounds often in 3 weeks. "Skinny" limbs changed to graceful roundness. Skin clears. Tired feeling vanishes.

Only when Yeast is Ironized is it more effective—for Iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant tablets in a handy bottle. Safe for everybody. Never cause gas or bloating, no harmful drugs.

Go to any druggist today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, get your money back from druggist or manufacturer. If inconvenient to buy from druggist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Fort Erie, Ont. Desk 425-BY.

WORLD HAPPENINGS BRIEFLY TOLD

Mrs. S. H. Logan, wife of the Toronto manager of the Bank of Commerce, Toronto, was instantly killed in an automobile accident near Brantford.

Expanding trade in the New Westminster area is seen in the recent shipment of a large consignment of rope from the local factory and canned milk from the Fraser Valley to the British West Indies market.

Miss Susan Lawrence, parliamentary secretary to the British Ministry of Health, has appointed Miss Ellen Wilkinson, another Labor member of parliament, to be her parliamentary private secretary.

The next quadrennial conference of the international council of nurses will be held in 1933 in Paris, France and Brussels, Belgium it was decided at the Grand Council meeting in Montreal.

As a "mark of respect to His Majesty King George," Ontario's provincial highways next autumn will cease to bear that designation, and will become, officially known as "the King's Highway," if projected legislation is adopted.

Cramps Diarrhoea Pains in Stomach

Mr. Roy Lighthall, Milford, Ont., writes: "I became very ill; lost my appetite, had cramps, diarrhoea, and severe pains in my stomach."

"I purchased a bottle of

and before I had taken half of it I was completely relieved, and have had no symptoms of the trouble since.

"I cannot praise 'The Extract' too highly, and will never be without a bottle of it in the house."

"It is pleasant to take and acts very quickly."

"My brother had the same experience with it as I had."

"Dr. Fowler's" has been on the market for the past 84 years; you don't experiment when you buy it. Price 50 cents a bottle at all dealers; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

The Phoenicians were the greatest navigators of their time, their ships carrying the treasures to all the Mediterranean countries and as far as the British Isles, where they came in search of tin.

Headache

W. N. U. 1794

South Africa's Problem

White Man Incapable Of Skilled Work Is Classed As Kafir

By the Colour Bar Act, it is an offence for a native to undertake skilled work. Unskilled jobs are, therefore, regarded as "Kafirs' work," and no white man would dream of undertaking them. The result is that, if the European is incapable of skilled work, he cannot enter the ranks and becomes a "poor white," a social parasite, a loafer hanging on to the skirts of white society, a decadent slowly sinking lower into the morass of degradation, a feckless, hopeless figure. One white man in every twelve in South Africa is in this category today! It is the greatest social problem with which the country has to deal. This is the price they are paying for the introduction of slavery two centuries ago, and for the maintenance ever since of the slave-owners' attitude towards manual toil. So long as manual labour is regarded as degrading and as "Kafirs' work" with which no white man must soil his hands, just so long will industrial prosperity delay its coming.

RED HOT JULY DAYS HARD ON THE BABY

July—the month of oppressive heat; red-hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles, or, if they come on suddenly, to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly, will banish it. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Rubber From Weeds

Edison Experimented With Many Varieties Before He Was Successful

Mr. Thomas A. Edison has discovered a substitute for rubber. He long ago found that there could be no substitute for the rubber tree as the source of rubber, but he has discovered a weed—after experimenting with 15,000 varieties—which will produce a latex fluid from which a workable substitute for rubber can be extracted. The weed can be mowed like wheat, it was asserted by Mr. Edison's representative, and does not require planting anew every year, being a perennial. Mr. Edison has of late been engaged in experiments with the object of making a machine which will separate the rubber substitute from other components of the fluid, but he has so far not been successful in this direction.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

The island of Puka, in the South Seas, is 800 miles from its nearest neighbor. Its inhabitants at present consist of 300 natives and one white man.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Expeller.

Ten Thousand Words On Postcard

A German artist has written on an ordinary postcard a 10,000-word story of Colonel Lindbergh's flight across the Atlantic. It took three months to complete and was written with a hard pencil and without the use of a magnifying-glass.

At Queen Victoria's birth there were five persons between her and the throne.

Evidences of the existence of the harp in prehistoric times have been found.

Keep Minard's Liniment in the Medicine chest.

Christie's Biscuits

The Standard of Quality Since 1853

Appreciation Of Spain

Officers Of British Aircraft Carrier "Eagle" Decorated By Spanish Premier

Premier De Rivera, of Spain, summoned the officers of British aircraft carrier "Eagle," to be decorated with the Spanish Cross of Merit for saving Commander Ramon Franco and his three companions from the mid-Atlantic. The ceremony took place at Madrid.

It was Spain's crowning gesture of appreciation for the great service the Britishers had done to the Spanish government in rescuing the fliers. As soon as the full list of the members of the crew of the "Eagle" is received from the British admiralty the sailors and marines of the rescuing ship also will be awarded medals.

The "Eagle" itself will be decorated with the aerial medal. This ceremony will take place either at Algiers or Gibraltar, as soon as the British admiralty finds it convenient to send the ship there for that purpose.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

One of the impressive things of modern life is to stand and watch a single policeman dam the flow of traffic. And hear the pedestrian.

SUNDAY SCHOOL LESSON

JULY 21

EZEKIEL'S VISION OF HOPE

Golden Text: "Of the increase of his government and of peace there shall be no end."—Isaiah 9.7.

Lesson: Ezekiel 47.1-12.

Devotional Reading: Psalm 100.

Explanations and Comments

The Source Of The River, verses 1, 2.—The prophet Ezekiel is describing his great vision. He has finished his view of the temple, its courts and its worship as they are to be in the new Jerusalem, and now his supernatural guide brings him once again to the door of the temple. There he beholds a miracle. From underneath the threshold waters issue.

The river starts from the sanctuary; from every church today influences should stream that quicken and bless the life of all around. The river sought the most direct course to the desert and the Dead Sea; the Church should carry the water of life to the waste places, the dreary, barren, thirsty places of the world. Is the life of our church limited to its own outer and inner courts?

The Deepening Of The Stream, verses 3-5.—He follows the river with his guide, who measures with a line the distance they travel. A quarter of a mile (one thousand cubits) away from the temple, Ezekiel finds the water up to his ankles. (A cubit varied in length from eighteen to twenty-one inches.) The waters rapidly deepen as they continue their way, and when a half mile is measured the waters reach his knees; three-quarters of a mile, and it is up to his waist; and at the end of a mile the waters have become a river too deep for them to ford, deep enough to swim in.

"Ezekiel's pictures may seem to us, in part, mechanical and fantastic, if not grotesque; but it is not difficult for a sympathetic imagination to appreciate the thing Ezekiel

would be at, or to share his hopeful and eager wonder at the possibilities of the future time when the Church has secured her true place in the land and in the hearts of the people.

Nothing As Good For Asthma. Asthma remedies come and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

Cannot Be Exported

Many of the finest varieties of bananas cannot be exported on account of their tender skin, among them being the "lady finger" banana of the Canary Island, which is only about three inches long.

For Baby's Bath

More than that of any other member of the family, baby's tender, delicate skin needs the greatest care and attention. The soft soothing oils in Baby's Own Soap make it specially suitable for babies, and its clinging fragrance reminds one of the roses of France which help to inspire it.

"Is best for you and Baby too" 27-28

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

LIFE SAVING

During the summer months there is
nothing that youth enjoys so much as
outdoor bathing. Whether the water
is clean or the particular stretch of
it safe is really a matter of little im-
portance to it. Youth rarely takes the
time to consider consequences and is
rather scornful of the individual
whose motto is "Safety First." In con-
sequence summer after summer young
lives are lost that can be ill spared.
Young lives wasted in almost every
case.

Every child should be taught to
swim. The younger the pupil the eas-
ier is he taught. Quite small children
rather resemble frogs, they instinctively
strike out in the correct way
when they find themselves in water.
Instruction in swimming should form
part of the education of every boy and
girl.

It is a healthful exercise. It is a
safeguard against accidental death by
drowning. It may be and frequently
is the means of saving life for others.

First Aid to the apparently drowned
is nearly as important as the ability

to swim. Instruction in the one means
instruction in the other. Help protect
the youth of Alberta by learning to
swim.

COURTESY

In every walk of life from the man
who digs a ditch to the president of
a railroad, you will find that courtesy
is a very important thing. If you wish
to be popular while young, and suc-
cessful when you get old, you must
cultivate your courtesy. If in your
station of life you find your work
compels you to deal mainly with peo-
ple, you must learn to dress neatly,
speak correctly and above all, be con-
tent. Always be sure you do your
maneuvering at home. If you have ha-
bits that are not desirable, try to
get rid of them. If you are employed
by someone, always be loyal to him.
If your position calls for your being
at your work at 8 o'clock, always re-
member you have a double responsi-
bility because not only your reputa-
tion is at stake, but also your em-
ployer's. The greatest assets in hu-
man life are, good health, honesty, de-
pendability and responsibility. But
before you can attain any place in the
world you must add courtesy.

(335)

Four hundred thousand babies
have been born at Banff during the
past fortnight. It is not the fine
mountain air that accounts for this
phenomenon, but the mountain
water, and the babies are rainbow
trout from the Dominion Govern-
ment Fish hatchery on the banks
of the Bow River. They will be
placed in the lakes and streams of
the Rocky Mountain Parks.

Canadian Pacific Railway Police,
Ontario No. 1 team, are champion
revolver shots of the Dominion.
After winning the Chief Constables
Association Trophy in May, the
team shot against the Lethbridge
detachment of the Royal Canadian
Mounted Police which had won the
championship for Military forces,
and defeated them 1412 against
1270. Possible score was 1500.
The victorious team is composed
of Investigator E. O'Brien, Sudbury;
and Constables H. H. Gyves, Port
McNeill; J. H. B. MacDonald, Tor-
onto; D. Prendergast, Sudbury, and
W. E. Tinsman, White River, Ont.

With a population that ranks 28th
among the countries of the world,
Canada is fifth in total exports and
third in total turnover of trade.

Charles Olsen and Raffaele
Malullari, rival round-the-world
racers, are trying to make a trip
circling the globe in less than 30
days using only "regular means of
transportation." Olsen left Victoria
on Canadian Pacific greyhound
Empress of Asia June 13, and
Malullari arrived at Vancouver on
the Empress of France June 22.
Airplanes come within the term of
the contract since both men have
already used them. The race at
time of writing is very close.

A problem that has defeated the
learned for centuries—the squaring
of the circle—has apparently been
solved by L. W. Hartman, Canadian
Pacific Railway timekeeper at Lon-
don, Ont. Hartman claims he de-
vised a geometric method by which
to reproduce the exact area of a
circle in the shape of a square.
University professors are now ex-
amining his solution. He was
born in Rumania and never saw
a college, but speaks English,
French, German and Rumanian flu-
ently.

Adelard Goulet, head barber of
the Banff Springs Hotel, had what
he regards as a close shave the
other day when he was off duty on
the golf links and met a black bear.
He topped his drive and the bear
beat a hasty retreat. Wild ani-
mals are very tame in this district
this year.

TOTAL ASSETS IN EXCESS OF \$900,000,000

Carbon Branch: R. J. FAIRBAIRN, Manager.

PLAN TO SOLVE LABOR PROBLEMS IN GREAT BRITAIN

London, England. In debate on the address in reply to the Speech from the Throne, Right Hon. J. H. Thomas, Lord Privy Seal and minister of employment in parliament outlined the government plans for reducing the volume of unemployment in Great Britain.

Schemes must not be considered with a view merely to giving work, but also from the standpoint of stimulating trade at home and abroad, he declared. "What we import we should make for ourselves," he asserted amid cheers from the opposition benches.

Mr. Thomas continued that the railways imported wooden track sleepers when examination had shown that only technical difficulties prevented them from using steel sleepers which could be made in Britain.

Road schemes costing \$187,500,000 and providing work for five or six years would be speeded up, Mr. Thomas said, adding that the government's contribution would be paid out of the road fund.

Arrangements would be made for the immediate re-construction of the Waterloo Bridge on which depended the great Charing Cross bridge scheme which would involve expenditure of \$55,000,000. Other schemes to be submitted to the railway companies were for the electrification of the Great Eastern Railway suburban lines running out of Liverpool Street station tube extensions, improvements in docks and harbors, and a freight railroad around outer London to avoid cross-London traffic.

The natural resources of the country would be developed, including land drainage, forestation and fisheries.

Mr. Thomas declared he was seriously considering a proposal to make Scotland more attractive and thereby enable "our American cousins to see the thrift of the Scots," a statement that caused laughter.

Mr. J. H. Thomas announced he was going to Canada when Parliament rises at the end of the present month to discuss with the Canadian Government the subject of British migration to Canada.

The minister stressed that in any discussion of migration with the Dominion, nothing would do more harm than the suggestion that Britain wanted to solve her unemployment problem at their expense.

"They will resent it and resent it bitterly," he said. "I believe migration is a problem that has to be negotiated on the spot. It is something which has to be discussed in all its bearings, because anyone who has visited Canada and knows it as I know it, knows perfectly well the remarkable change from an agricultural to an industrial population that is taking place there."

"Hitherto our migration schemes have been based on the assumption that agriculturists alone were wanted. That is not true today. Equally, labor there has safeguarded its position by saying 'no, we are not going to have people forced on us to lower and break down our standards.'"

"I propose to visit Canada myself immediately the House rises to discuss the whole problem."

New Chancellor Of Queen's

Kingston, Ont. James Armstrong Richardson, of Winnipeg, head of the firm of James Richardson and Sons, was chosen as the new chancellor of Queen's University to succeed Sir Robert L. Borden, who resigned several weeks ago. Mr. Richardson's name was the only one to be placed in nomination and he was unanimously chosen for the post.

Rumor Is Denied

Ottawa. A rumor that Canada has made an offer to the Newfoundland government for the purchase of Labrador was given official denial here. "In no way is it true," said Premier King, when the matter was drawn to his attention. The rumor indicated that the price offered by the Dominion government was one hundred million dollars.

State Control Of Radio

Royal Radio Commission Makes Important Recommendations

Ottawa.—Government control of all broadcasting stations, elimination of advertising from the programs and that licensees pay the upkeep by license were advocated before the Royal Radio Commission at the final session here by the All-Canada Congress of Labor and the Canadian Legion of the British Empire Service League.

The Canadian Congress representatives also recommended that the present commission be continued or a similar organization be established vested with complete administrative control of radio broadcasting.

The Canadian Legion advocated a broadcasting organization that would develop imperial patriotism and Canadian culture. Canadians, said the Legion briefly were being overwhelmed with foreign programs charged with propaganda.

The commission will at once begin the preparation of its report. It will probably be available about the end of the month.

Canada May Consider Relations With Russia

Communications From British Government Have Been Received At Ottawa

Ottawa.—Certain communications of a "general and preliminary nature," regarding the signing of the optional clause, and also bearing on resumption of diplomatic relations with Russia, have been received by the government of Canada from the British government, that was the extent of the information given out here with respect to these matters which are accorded specific mention in the King's speech at the opening of the parliament.

Just what position the Canadian government is taking on the question of resuming diplomatic relations with Russia has not been stated. It is considered likely, however, that Canada will support any such move.

Two Injured In Explosion

Faulty Water Jacket Burst In Jewish Orphanage, Winnipeg

Winnipeg.—A violent explosion, which shook buildings within a half a block radius, caused injury to two persons and damage to the basement of the Jewish Orphanage, on Matheson Avenue, north Winnipeg.

Many children are cared for at the Orphanage, but all escaped injury.

While a city water works employee was attempting to repair a faulty water jacket in the basement it exploded. The employee, George Bennett, was painfully hurt, while Mrs. A. Osovsky, wife of the Orphanage superintendent, suffered from arm injuries and shock.

It was first reported that fire had followed the explosion, but this was erroneous, though firemen from central and north stations were called out and aided in bringing the injured from the building.

Prince Sails For Home

Prince Henry Given Enthusiastic Send-Off At Quebec

Quebec, Que.—Prince Henry, Duke of Gloucester, concluded a month's visit to Canada, when he sailed from this port on the "Empress of Australia" bound for England. A flag draped ship and the presence of the Governor-General, Lord Willingdon, and Lady Willingdon on the dock heralded the Prince's departure, while citizens of the ancient capital turned out in large numbers and gave the King's fourth son an enthusiastic send-off.

Non-Party Delegation

London, England.—With the decision to send a non-party delegation to the league of nations assembly in September, it became known that Viscount Cecil would probably be one of the delegates.

Dominion Rifle Meet

The annual Dominion Rifle Association meet will be held this year from August 12 to 17. It was announced recently. The meet will be held at the Connaught Ranges, Ottawa.

PARLIAMENTARY SECRETARY

Miss Susan Lawrence has been selected as parliamentary secretary to the British minister of health by Premier Ramsay MacDonald, according to the list of appointments to the junior cabinet posts.

Envoy To Japan

Hon. Herbert Marler Will Deliver Several Addresses In West

Ottawa.—Places at which Hon. Herbert Marler, Canadian minister-designate to Japan, will speak on his trip west from Montreal on July 14, have been announced here.

On his way to British Columbia, Mr. Marler will speak at Toronto, Oshawa, Hamilton and Fort William, Winnipeg, Regina, Calgary and Jasper Park. In British Columbia where he will spend most of his time before sailing on August 29, he will speak at Vernon, Nanaimo, Duncan, Port Alberni, Penticton, Kootenay Landing, Kimberley, Windermere, Kelowna, Sicamous and Victoria.

World's Population

Believe Population Will Be Doubled In Next 150 Years

Chicago, Ill.—Mankind probably will require at least 150 years to double the world's present estimated population, which is between 1,700,000,000 and 1,900,000,000, if fertility and mortality remain as at present. A mere doubling of the world's population however, will produce a striking change in the race composition, with a greatly increased percentage of Slavs. The population of North America, Western and Northern Europe, and Australia even now are no longer reproducing themselves.

Gold Rush Started

Report Of Strike In Northern Saskatchewan Causes Excitement

Big River, Sask.—The placer gold and platinum strike about 300 miles north of Big River is causing considerable excitement at this point. About 100 men have left here, and over 400 from other points have gone to the scene of the new find. A number of parties are now outfitting at this point and will leave by barge and canoes this week.

The principal find is reported at Probers Lake. An old prospector who just arrived here from the scene of the strike to secure supplies reports that when he left over 500 claims had been staked around Probers and Birch Lakes.

The route to the new placer field is by water, the entire distance being without portages, via Big River, Isle La Crosse, Lake Deep River, Clear or Churchill Lake. All kinds of reports are coming in as to the richness of the new finds, one report stating that \$17 was washed from one shovel of dirt.

To Cross Atlantic In Small Vessel

Five Cleveland Men Believe They Can Make Return Trip

Cleveland, Ohio.—The little power boat Karf, manned by five men who built it, put out from here on an adventurous attempt to cross the Atlantic ocean.

The Karf, captained by Joe Leppich, 31, a German Great War veteran, took on 500 gallons of gasoline and enough canned goods and water to last three months. Captain Leppich intends to skipper her down the St. Lawrence river and then across the sea to Hamburg, Germany. "We will be in Hamburg in ten days. The Karf will make the trip there and back," said the captain.

Killed By Artillery Shells

Two Accidents Cause Death Of Five In Poland

Warsaw.—Two accidents involving heavy artillery shells killed five persons and injured a number of others in Poland. In one case two country boys found a dud on a Russian-Austrian battle front near the village of Luck. They took it home, where it exploded, killing a family of four and wrecking the home. The other accident occurred near Cracow, where, in artillery practice, a shell landed in a group of military observers, killing one and injuring several others.

An Old-Time Canadian

He is a member of the Kwakiutl-Nootka tribe of West Coast Indians and this is the regalia in which he appeared when his tribe welcomed the Governor-General on his recent trip on Canadian Pacific steamship "Princess Norah" along the islands and shores of Vancouver.

The quill through the nose is more reminiscent of the West Coast of Africa than the West Coast of Canada, but it shows that strange customs and costumes are to be found still in the Dominion.

CROP CONDITIONS ARE VARIABLE REPORT REVEALS

Ottawa.—The telegraphic crops report issued by the Dominion bureau of statistics showed a wide range of conditions across the country. Crop prospects continue satisfactory over Southern and Northern Alberta. Warm weather with plenty of rain is needed in Saskatchewan and Manitoba. Fall wheat is excellent in Ontario. Scarcity of rain also is reported from Nova Scotia. The largest strawberry crop is expected in the history of British Columbia. Favorable reports are to hand from New Brunswick and Prince Edward Island.

Reports by provinces for the end of June:

Manitoba — Manitoba department of agriculture:—

Crops started late on account of cool spring. Light rains last fall left little soil moisture this spring. Germination fair. Slight setback to few fields by frost on June 12. Rain-fall scattered and variable. Need heavy general rain over province. Prospects fair.

Saskatchewan—Saskatchewan department of agriculture:—

Growth was retarded in June by cool weather and lack of moisture and crops are generally behind the average. Although moisture conditions were improved toward the end of the month by rain, warm weather with plenty of rain, especially in the southern districts will be needed in July. In the Swift Current district wheat is week later than the average. Moisture supply varies widely. Will need good rains during next three weeks to make even fair crop.

Alberta—Alberta department of agriculture:—

Crop prospects continue satisfactory over southern and northern sections of Alberta. Yield greatly reduced over central area but condition of coarse grains and feed improved by rains during past week. Fall wheat very satisfactory in south. Good crop alfalfa ready for first cutting. Livestock condition good. Dairy production increasing with improved pastures.

Sugar-beet crop generally good.

British Columbia—British Columbia department of agriculture:—

Weather during June has been cool with frequent showers which have generally benefitted all crops. Grain crops making rapid growth and appear to be healthy and strong. Haying is general, but due to the cold backward spring the prospects are that the crop will be light. Root crops and vegetables are in splendid condition and making good growth. Possibly the largest strawberry crop in the history of the province is being harvested, but prices are lower than last year. Raspberries and loganberries will yield approximately the same as last year. The yield of apples and other tree fruits will be about 25 per cent. less than last year.

Discovers Liquor Cache

Aeroplane Plows Up 20 Barrels Of Rum With Tail Skid

Sydney, N.S.—Plowing up 20 barrels of rum with the tail skid of his plane was the unique experience of Major-General J. H. MacBrien, when engine trouble drove him into a forced landing on a farm near here.

The cache was neatly hidden under sticks covered with sod, and had the Moth dropped a wheel into the pit instead of neatly straddling it, the results might have been serious for the pilot and his guest, Dr. Freeman O'Neill.

May Spend Winter In Africa

London, England.—The Evening News says it understands the King is considering proposals to spend part of next winter in one of the British dominions. South Africa, about which confidential inquiries already have been made, is considered the most suitable.

Injuries Proved Fatal

Los Angeles.—Gladys Brockwell, motion picture actress, died of injuries received in an automobile accident. Her physician said death was due to peritonitis which developed as the result of internal injuries.

GRAIN GROWERS WITHDRAW FROM CO-OP. UNION

Winnipeg.—One of the largest produce marketing corporations in western Canada has indicated definitely that it would withdraw its affiliation from the Co-operative Union of Canada, at the congress of that body here, when Hon. T. A. Crerar, president of the United Grain Growers, Limited, Winnipeg, replied to charges levelled against the United Grain Growers by delegates from Saskatchewan, that the company "no longer retained its co-operative spirit among the farmers of the western provinces."

A resolution presented by H. W. Ketcheson, Davidson, Sask., chairman of the Resolutions Committee, asking the resignation of the United Grain Growers, Limited, received the support of several delegates before Hon. Mr. Crerar announced the intention of serving notice of his company's withdrawal from the Co-operative Union.

In speaking of the statement that the United Grain Growers had forsaken the co-operative method of doing business, Mr. Crerar strongly denied that the company had ever swerved from its original plan to work for the benefit of the western farmer.

"Our business details have not changed in any detail since 1906 when we started business," Mr. Crerar stated. "The company has always felt a strong co-operative spirit, still does and always will."

The annual congress was denied the privilege of voting on the resolution to ask for the resignation of the United Grain Growers when Mr. Crerar made his declaration that the firm would withdraw. J. G. Mohl, Edenwold, Sask., while admitting that the Grain Growers had done a great pioneer work in the co-operative methods throughout Western Canada, was of the opinion that no longer could they term themselves a co-operative concern.

In some districts of Saskatchewan, he said, the United Grain Growers is in direct opposition to local co-operative societies.

The only point on which the congress was concerned, said Mr. Ketcheson, in supporting his resolution, was whether the United Grain Growers could be rated a co-operative organization at present. He thought not.

"The people of the west who trade with the U.G.G. are not collecting profits, which, by their trade, they make for the company," he declared. "Huge money reserves have been built up but this mass of money is for the shareholders—and the shareholders only, not the farmers," he added.

Japanese Aviator Killed

Started From Los Angeles July Third, On Trip Around World

Salt Lake City, Utah.—The body of Masashi Goto, 22-year-old Japanese aviator, of Los Angeles, and the wreckage of his aeroplane in which he had started on a projected trip around the world, was found in a canyon southeast of here. Backed by funds raised by Japanese newspapers of the Pacific Coast, Goto had set out July 3, from Los Angeles and had flown to Salt Lake City. The next morning he left the airport here in his small plane and was never seen alive again.

Railway Conductors Given Privilege

Ottawa.—The right of the Order of Railway Conductors to contract separately with the Canadian Pacific Railway, western lines, for an increase in wage rate, apart from the Brotherhood of Railway Trainmen, was upheld by a report of the Board of Conciliation emanated by Hon. Peter Heenan, Minister of Labor, to enquire into this matter.

Chinese Arrest Soviets

Tokyo.—An Agency dispatch from Harbin said that Chinese authorities arrested 174 Soviet officials and employees of the Chinese Eastern Railway. The happening was described as a coup aimed at ousting Russia from joint control of the line.

W. N. 11. 1794

American Boat Forfeited

Vessel Will Be Put Up For Sale By Order Of Admiralty Court

Victoria.—The American salmon trolling boat number 557-G.A. was condemned, and declared forfeited to His Majesty by Hon. Mr. Justice Archer Martin, in the Admiralty Court here. The vessel will be put up for sale by Herbert Goggin, Admiralty Court Marshal.

The number 557-G.A. was seized May 18, off Pachena Point on the west coast of Vancouver Island by the Canadian Government Fisheries Protection cruiser, Givenchy, and was charged with illegal fishing in British Columbian waters.

H. A. MacLean, K.C., counsel for the owners of the tug 557-G.A., who withdrew from the court proceedings against the boat made a re-appearance in Admiralty Court and entered a consent on behalf of the owners of the vessel to an order for its condemnation.

In the action of the Crown versus the Jeannette, Captain Olaf Hansen, master of the American vessel which was seized by the Canadian Government Fisheries Protection cruiser, Malaspina, on May 6, last, in Goose Harbor, about 100 miles north of Alert Bay, told the court that engine trouble experienced, May 4, had caused him to seek anchorage in Goose Harbor the following day to make temporary repairs to the ship's engines.

Officials Find Drugs In Envoy's Boxes

French Customs Examiner Discovers Cases Contained Heroin and Cocaine

Paris.—French customs officers believe they have uncovered a flagrant violation of the diplomatic immunity to cloak wholesale importation of heroin and cocaine into France. An investigation has been ordered.

The customs examiner's curiosity was aroused by the appearance of four packing-cases addressed to Sirdar Al Ghulam Nasi Khan, the Afghan minister in Paris, who has just been appointed ambassador to Moscow.

As the cases were being placed on a wagon officials noticed a white powder escaping through a crack. They took a sample, which proved to be heroin. The cases were all opened and found to contain heroin and cocaine to the value of \$33,280.

To Form Wheat Pool

Australian Growers Ready To Take Ballot On Question

Sydney, Australia.—Following a conference with representatives of the wheat growers on the position of the Australian wheat industry, the cabinet accepted the recommendations for a ballot among wheat growers on the question of establishing an Australian wheat pool. The conference was in favor of a minimum price of three shillings and six pence a bushel (approximately 84 cents), for the first advance from the pool to growers.

It is understood banks are willing to guarantee a certain amount if the pool is formed. The government's share in responsibility for such a guarantee is to be discussed later.

Ottawa Not Informed

No Communication Yet Received Regarding Imperial Economic Conference

Ottawa, Ont.—The Dominion government has not yet received a communication from the government of Great Britain asking whether or not it will be possible to hold an Imperial economic conference. This was stated at the Department of External Affairs when the attention of the Department was drawn to the statement of Right Hon. Philip Snowden, in the British Parliament, that such communications were being sent to the various British Dominions.

Will Exclude Trotsky

London, England.—The Daily Express states that the British Cabinet has reached a formal decision to refuse Leon Trotsky entrance to Great Britain. The exiled Soviet chieftain made application for a visa soon after the Labor victory was reported at the polls.

SPEAKER OF BRITISH HOUSE OF COMMONS

Captain Rt. Hon. A. E. Fitzroy, who was unanimously re-elected Speaker of the British House of Commons.

Introduced To Prince Under Fictitious Title

Woman Gate Crasher At Mansion House Banquet Had To Leave

London, England.—It was revealed that a woman gate crasher was presented to the Prince of Wales at a banquet given at the Mansion House in honor of Sir Abe and Lady Bailey.

A pretty young woman of about 28 years arrived at the Mansion House and had herself announced under a fictitious English title. She was introduced to the Prince, who shook hands with her and also the guests of honor of the evening.

All might have gone well but the fact that only four women had been officially listed, proved her undoing. She was requested to leave.

The identity of the uninvited guest is unknown.

Cowboy Loses Right Eye

But Finished Ride For Prize At Calgary Stampede

Calgary.—An outstanding feat of human endurance was performed at the stampede here when Lee Farris, of De Winton, Alta., known far and wide as the "Canada Kid," continued to ride a Brahma steer after his right eye had been pulled out by the beast's horns. Farris finished his ride to take the prize money for the day for this event although he suffered his injury early in the test. He was taken to hospital after the event and the remains of his eye were removed. His condition is serious but he is expected to make recovery. Last year the Canada Kid was the champion all-round cowboy.

Talkies On Atlantic Liners

London, England.—Apparatus for talking pictures is being installed on the Trans-Atlantic liner "Majestic," it was announced here. The "Leviathan" will follow suit in the near future, and all the other principal liners will be similarly equipped, it was learned.

TWO GOLF LEADERS

Western Canada is very much in the golfing limelight this year with both the Canadian Amateur and Western Canada Amateur championships being played over the Jasper Park Lodge course, Jasper National Park, Alberta, August 19-24, inclusive. Much organization has been necessary to make sure of the success of these tournaments, and none have worked harder than C. E. Harvey, of Winnipeg, president of the Royal Canadian Golf Association (left), and C. W. Jackson, of Winnipeg, president of the Western Canada Golf Association.

Concessions For Tourists

Broadening Conditions Under Which Visitors To Canada May Bring In Motor Cars

Ottawa.—A memorandum is going forward to the collectors of the national revenue broadening the conditions under which visitors to Canada may bring in their motor cars. The memorandum has been issued by Robert Breadner, commissioner of customs.

In the past a tourist from the United States could bring his car under a tourists permit and go where he wished. However, if visitors desired to combine business with pleasure in this country they were prevented from using their cars.

The new memorandum will give these persons the same privileges as tourists with respect to the free use of their cars while in this country. It is especially provided, however, that the cars cannot be employed in such commercial uses as carrying passengers, or in any other commercial pursuits in competition with Canadians.

Would Abolish Bank Guard

Labor Member Brings Up Question In British House

London, Eng.—A suggestion has been made in the House of Commons. For the past 150 years one of the sights of London has been the nightly march along the Thames Embankment of what is known as the "bank guard," one officer and about 50 men from one of the Guards regiments, which goes to the Bank of England and says all night as a guard to the bank.

When Oliver Baldwin, Laborite, son of the former premier, asked how much the bank paid for this service, Tom Shaw, secretary for war, replied that the bank paid nothing, as under the statute it acts as banker for the government and has custody of the gold reserves. In the discussion which followed, Ernest Thurtle, Laborite, suggested the guard be abolished.

There the matter rests, Secretary Shaw having promised to take the matter under advisement.

Ask For Drastic Punishment

Officials Demand Trial Of Vice-Consulate's Wife Under Chinese Law

San Francisco.—A demand that Mrs. Ying Kao, wife of the Chinese vice-consul in San Francisco, be tried under Chinese law in China and put to death if convicted for her alleged part in bringing a large consignment of opium to this country, was made here by the executive committee of the Kuomintang of America.

It was explained that the Nationalist government had enacted stringent laws against trafficking in opium in China and that such laws provided the death penalty in case of their violation by persons connected with the government.

Yink Kao, upon the advice of friends, terminated his connection with the consulate. Neither Mrs. Kao nor her husband have been placed under arrest.

HIGH GRADE WHEAT IS STILL BOAST OF CANADA

Fort William, Ont.—Wheat was and still is the boast of Canada and never was there a time when it had been chased off the high seas, declared Dean Rutherford, member of the Saskatchewan Royal Grain Commission, at a session of the commission. Dean Rutherford was replying to an editorial which appeared in a local newspaper and which criticized the quality of Canadian wheat.

Canadian wheat has a quality of its own, he declared.

"Even our number five wheat was quoted at equal and a little better than other export wheat from other countries," he speaker stated.

While Britain will buy American wheat when it is cheaper, Britain always wants Canadian wheat, Dean Rutherford continued. A report issued recently by the United States government quoted the price of the best exportable Argentine wheat at 16 cents less than Canadian No. 3 Northern, and the best United States export wheat at 14 cents under the same grade.

The commissioner said that lack of rain in the fall of 1926 and 1927 had damaged the crop. The same condition prevailed this year. The farmer cannot be blamed for this, he stated.

"Our wheat holds its place in the markets of the world with any wheat in any country of the world," Dean Rutherford concluded.

A representative of the local newspaper whose editorial was under discussion, declared that it could not be denied that Manitoba No. 1 hard wheat on which the reputation of western Canadian wheat was based had vanished from the market. In no place in the west was No. 1 hard raised today, he declared. He drew attention to the report of the seed branch on the seed sown by the western farmers.

This report showed that in a large number of cases seed taken from the hopper of the drills showed that the farmer was actually sowing fifty thousand weed seeds per acre. The condition of western fields in some sections were such that it was impossible to say whether a stooked field contained stocks of grain or of weeds. He claimed that these conditions were under the control of the farmer.

For these reasons, he believed there was justification for most of the statements in the editorial in question. It was possible that No. 3 wheat was all that was claimed but the farmer no longer has even No. 3 to sell.

The commission brought its session at the head of the lakes to a close with today's meeting. The commissioners departed by lake steamer to continue their investigations at the lower lake ports and the Atlantic seaboard ports.

Pensions In Russia

Workman To Benefit Under Soviet Old Age Pension System

Moscow.—Workingmen who have reached the age of 60 and worked at least 25 years are entitled to receive half their present wages until death, under the provisions of the old age pension system, enacted by the Soviet Government. In dangerous occupations, the age limit is 50 years. Women of 55 who have worked 20 years are granted the same benefits.

Recovery From Operation

Ottawa.—Hon. C. A. Dunning, Minister of Railways and Canals, was removed from the Civic Hospital to his residence on Range Road. Mr. Dunning was operated on six weeks ago for appendicitis and although his progress has been satisfactory it will be some considerable time before he is entirely recovered.

Unemployed In Britain

London, England.—The official registration of unemployed numbered 1,142,400 here on July 1, it was made known recently. This number is 24,593 above the mark of the previous week and 75,780 below the figure for the same period last year.

WORLD'S FAMOUS THREE FUEL HART PARR

In special tests conducted by nationally known engineers who used cheap distillate fuel the great Hart Parr 18-36 registered a draw bar pull of 5,535 pounds at 2 miles per hour and 4,975 pounds at 3 miles per hour. On the belt it easily pulled the amazing load of 43 horse power. The Hart Parr is a three fuel tractor and will burn gasoline, kerosene or distillate equally well. It is the one tractor that develops its power from the cheapest low grade fuel. Hart Parris are made for small, medium or large farms and have three forward speeds to speed up hauling and field work. Drive yourself and experience the thrill of controlling tremendous power.

COMING! FRIDAY AND SATUR-
DAY, AUGUST 2 and 3, BEBE DAN-
IELS IN "SHE'S A SHEIK."

DON'T MISS IT

Snicklefritz ----

In order to jingle coins in your
pocket you've got to shake a leg.

Sometimes a pessimist is a man who
backed an optimist.

She—When a man who bores me
asks where I live I always say, "In
the suburbs."

He—Aha, that shuts him up, I sup-
pose, but where do you live?

She—In the suburbs.

Harold is four years old and his father
took him to a candy store. The
confectioner gave him a piece of candy.
The father said: "Now what do you
say?"

"I've got two brothers at home," he
replied.

New Scottish national anthem—"I
can't give you anything but love,
baby."

If all the worms dug up in suburban
gardens during the month of July were
placed in a straight line several of
them would start wiggling and spoil
the effect.

Love at first sight never happens
before breakfast.

"Stop the Presses!" commanded the
constable as he drew up alongside of
a roadside petting party.

Mrs. Brown: Does your husband ob-
ject to cats?

Mrs. Smith: He does indeed. He
claims that I feed all the cats in the
neighborhood. Won't you stay and
have tea?

The Duke of Atholl told this story
from the Highlands the other day.

"An aristocrat old lady in the
Highlands," said the Duke, "hired a
crofter's boy as page, and brought
him a livery to be worn only on very
special occasions.

"One day she gave a dinner party.
As she entertained her guests in the
dining room ten minutes before the meal
was served, a tumbled head was stuck
into the dining-room and the voice of
the new page said:

"Please, ma'am, am I to wear my
ain breeks or yours?"

Who Does Your
Printing?

All business houses need more or less printed matter, all of which
is within the possibilities of the local printer. Yet how prone
many are to pass up the home printer and let the orders go to
city offices which have no interest whatever in rural communities
except to get printing orders and the cash to pay for them. Busi-
ness men, remember that the home paper is constantly promot-
ing the interests of the home community and you owe it to your-
self and your local paper to back up these efforts by at least hav-
ing your printed matter done locally.

WHEN IN NEED OF PRINTED MATTER CONSULT
